[1] The laboratory confirms that they will have the ERAs analysis in DBS matrix in the scope of the ISO17025 accreditation.
[2] Available for Initial Testing Procedure (ITP) only. Laboratory requires communication 3 months in advance to sample delivery.
[3] The laboratory has confirmed that that the analysis of biomarkers is subcontracted to the Dresden Laboratory.
[4] Validated GHRH, but not yet in scope. Contact the laboratory to confirm if GHRH in scope.
[5] Regarding the methods aimed at analysis of serum samples for Endocrine Module, the Laboratory confirms that their P-III-NP method on Centaur is accredited whereas for the LC-MS-based IGF-1 method is pending for accreditation.
[6] Confirmation for IGF-I only (not for P-III-NP)
[7] The laboratory has notified WADA that it is subcontracting to the Tokyo Laboratory. Contact the Laboratory to confirm if in scope.
