

# EPO WORKING GROUP

## Terms of Reference

The WADA EPO Working Group (EPO WG) is a specific Working Group<sup>1</sup> created by the WADA Science & Medicine Department at the request of the WADA Laboratory Expert Advisory Group (Lab EAG).

*These Terms of Reference are approved by the WADA Director General, following consultation with the Senior Associate Director of Science & Medicine (Laboratories).*

### **Purpose**

To be responsible for providing expert advice, recommendations and guidance to WADA Management, and to report to the Lab EAG with respect to the overall monitoring of laboratory EPO method performance, including the provision of second opinions. It shall also be responsible for the maintenance review of the Technical Document on EPO (TD EPO) and the EPO Technical Notes (TNs).

The original mandate of the EPO WG was from January to December 2023. The mandate was subject to a first extension until December 2024, which was then extended further until December 2025 and will continue until December 2026. It will continue to deliver recommendations to WADA during this extended period. There may be future or ongoing work for this WG (such as second opinion provisions as part of the EPO analytical testing process). It is intended that the future of this group will be evaluated at the end of this current period.

### **Objectives/Key Activities**

- 1) Provide second opinions pertaining to EPO analytical results, as per the requirements of the TD EPO.
- 2) Review EPO Laboratory Documentation Packages.
- 3) Participate as external experts in laboratory assessments, focusing on the evaluation of laboratory EPO method performance.
- 4) Finalize the review and updates of the TD2027EPO, which will be submitted for approval by the WADA Executive Committee with an effective date of 1 January 2027.
- 5) Review and update the TNs for EPO method performance, in support of the TDEPO.

---

<sup>1</sup> WGs are created on an as-needed basis only, and generally with a defined mandate requiring deliverables within a set timeframe. Where the expected deliverables are not met, an extension of mandate is possible, however it is not expected that WGs continue indefinitely. If it is considered that their work should be ongoing in nature, whether WG should be elevated to an Expert Advisory Group would need to be determined.

- 6) Provide expert opinion on scientific and technical issues related to EPO analysis, including the provision of feedback on laboratory corrective action reports (CARs) associated with EQAS or routine EPO performance or resulting from laboratory on-site assessments in a timely fashion.
- 7) Advise WADA on technical issues associated with the application of EPO analysis.
- 8) Provide review, upon WADA request, of selected research projects on EPO method development and application to anti-doping analysis.
- 9) Monitor existing and future trends in the EPO WG's fields of expertise having the potential to impact the anti-doping system and propose new ideas for WADA's internal Innovation Board consideration.

### **Reporting Structure**

The EPO WG reports to WADA Management and the Lab EAG.

### **Membership/Composition**

The composition of the EPO WG shall not exceed a maximum of 10 members, however an exception may be applied if deemed necessary.

The WADA Director General, following consultation with the Senior Associate Director of Science & Medicine (Laboratories) and the Chair of the WADA Lab EAG will appoint members to the EPO WG.

Members are selected on the basis of their relevant background and experience (e.g., expertise in the areas of EPO method development, validation and application to anti-doping analysis).

The membership of the EPO WG is published on the WADA website.

*If required, additional experts may be called upon on an ad-hoc basis for their contributions.*

Member terms<sup>2</sup> reflect the continued mandate of the EPO WG, i.e., until 31 December 2026. If the work of the EPO WG is not completed within this timeframe, and is further extended, the composition and terms of members will be reviewed to ensure their relevance remains.

### **Chair/Rapporteur**

The EPO WG Chair is selected based on their proven record and expertise in the areas of EPO method development, validation and application to anti-doping analysis. When possible, the Chair will be also a member of the Lab EAG.

The EPO WG Chair shall act as the official reporter who is responsible for ensuring appropriate coordination with WADA Management and the Lab EAG for providing accurate and timely information on all relevant issues.

---

<sup>2</sup> Should the member come from a WADA-accredited laboratory whose accreditation is revoked during their term, the member's term on the EPO WG will cease immediately. If the Laboratory is suspended or under an Analytical Testing Restriction, subject to WADA's discretion, the member may continue on the EPO WG.

### **WADA Liaison**

The WADA Science & Medicine Department, and in particular the Senior Associate Director of Science & Medicine (Laboratories), will serve as the primary liaison between WADA and the EPO WG.

The Senior Associate Director of Science & Medicine (Laboratories) will be an observer to the EPO WG in the sense that he contributes to and brings expertise to support the work of the EPO WG but does not have a voting position. Additional WADA Science & Medicine Department staff may also participate in EPO WG meetings as WADA experts on particular subject matters and to provide general support to the group where required.

### **Meetings and Working Norms**

The EPO WG will meet in person, or virtually via video or teleconference (as determined by WADA) as many times as is necessary to complete its mandate.

The EPO WG normally operates on the basis of consensus and maintains as informal a manner as is possible or appropriate for the conduct of business. Consensus will be sought whenever possible. In the event of divergence of opinion or disagreement concerning recommendations, the absolute majority (determined by vote by hand) will rule. In the event of a tie, the Chair has the casting vote. There is presently no formal practice concerning a quorum. The Chair has the responsibility to determine if a quorum is present. Meeting notes will record any dissenting opinion on request.

The Chair may limit discussion of resurfacing issues by referring to previous recommendations or conclusions of previous discussions.

Meeting notes of the EPO WG meetings, reports and correspondence relative to the group's work shall be retained at the WADA Headquarters.

### **Code of Ethics, Conflict of Interest, Confidentiality and Media**

Upon their appointment and again annually, all EPO WG members are required to sign a document, pursuant to which they undertake (i) to comply with the Code of Ethics adopted by the WADA Foundation Board (as amended from time to time); (ii) to comply with the Conflict of Interest policy adopted by the Foundation Board (as amended from time to time); (iii) to keep all matters related to WADA confidential; and (iv) to comply with the WADA Media Relations Policy issued by the Agency (as amended from time to time).

#### **A) Code of Ethics**

The purpose of the WADA Code of Ethics is to establish clear ethical standards over the activities of WADA Officials (as defined in Section 2 of the Code of Ethics) to allow WADA to achieve its mission and protect its core values. WADA and all its Officials undertake to foster a culture of ethics, loyalty, and integrity within their respective areas of competence.

## **B) Conflict of Interest**

EPO WG members will be bound by the WADA Conflict of Interest policy. They will be required to annually complete and sign a Statement of Absence of Conflict of Interest in accordance with the policy, and to update such statement if and as necessary during the year.

## **C) Confidentiality**

All EPO WG members are required to sign a Confidentiality Declaration upon appointment and again annually. This ensures all members reflect on the confidential nature of their WADA work and confirm their adherence to such confidentiality rules.

## **D) Communications and Media**

All EPO WG members must read and comply with WADA's Media Relations policy. If a member should receive a request for an interview in relation to their role in WADA, or WADA's work in the fight against doping in sport, they should first consult with the WADA Head of Media Relations or (if absent), with the WADA Communications Director.

## **Budget and Financial Support**

WADA has budgeted for the EPO WG for 2026. Should an extension of the mandate be required, additional budget will need to be approved prior to final confirmation of the group continuing.

WADA shall provide the necessary administrative and operational resources for meetings. WADA will cover certain expenses and compensate members for meetings in accordance with its applicable indemnity policy.

It is acknowledged that some experts go above and beyond, including providing extensive advice throughout the year, outside of annual meetings. WADA offers a further indemnity to experts for such work carried out. The specific indemnity details are outlined in the "Overview of WADA Working Groups" document provided to Members each year.

## **Effective Date**

These ToR originally came into effect on 1 January 2023 and were updated in January 2024 and January 2025 to reflect the extensions and to make some administrative updates. These ToR have then been updated in January 2026 to reflect the current extended timeframe.

These ToR are published on the WADA website.
