**ASADA**

# Introduction

**ASADA**

# Pre-Games Preparation: Task Force

- Ensure an intelligence approach to testing during the pre-competition and in-competition phase
- Detect, deter and prevent doping in the lead-up to the games

**ASADA**

# Pre-Games Preparation: Test Distribution Plan

## ASADA / CGF – TDP (25/03 – 15/4)

- Focus - Direct detection
- Blood ABP testing – not included
- Long term storage

Urine	Urine + ESA	Blood hGH	Total
620	185	103	908

# In-Games: Operation Centre

**ASADA**

# Education

**ASADA**

# Testing

ASADA DCOs	ASADA Chaperones
23	15

International DCOs	Volunteers
6	120

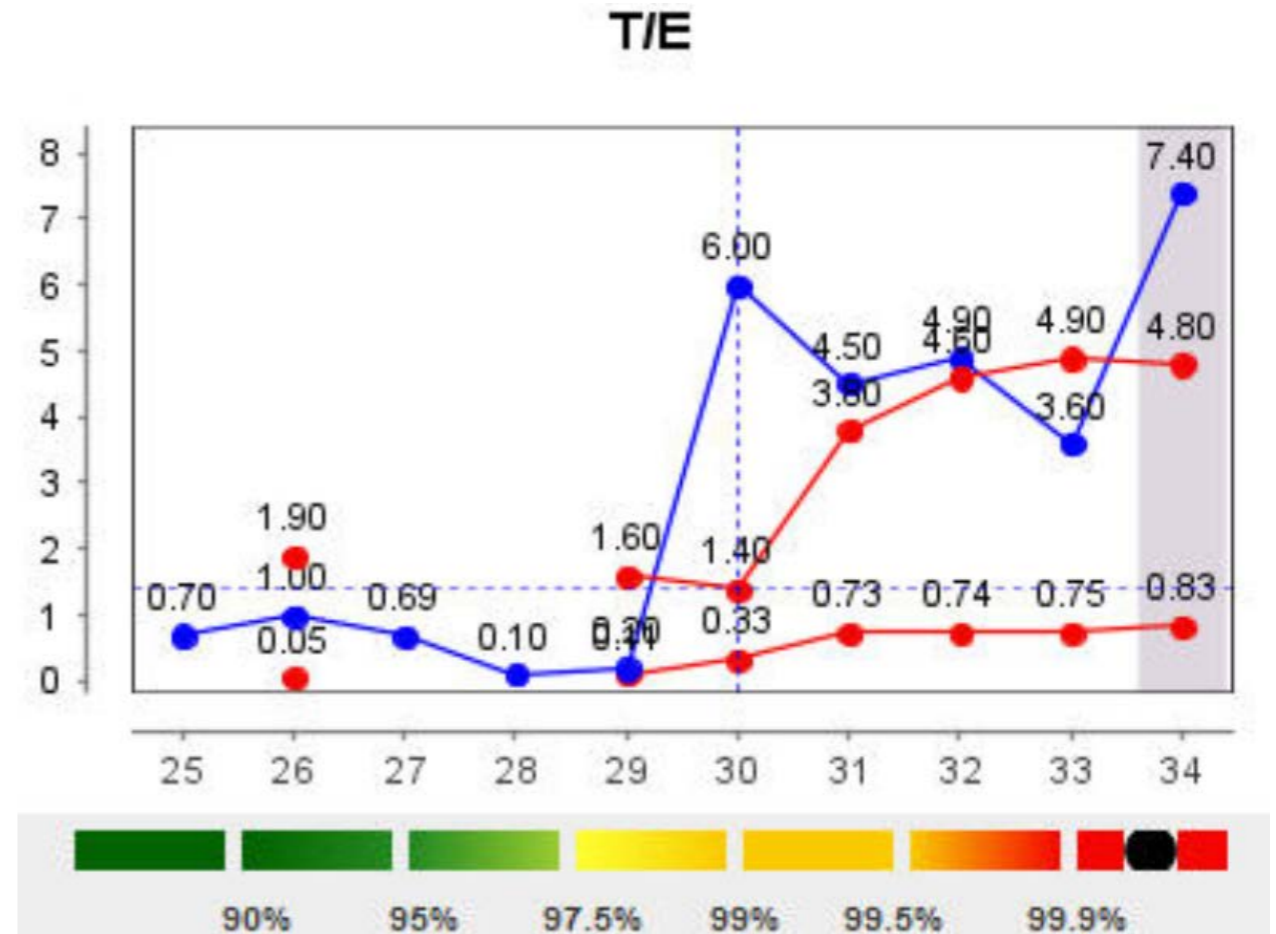

Total TDP	Total Actual
908	984

# ABP Monitoring

- Lack of access to ABP – impediment for the AD program
- Review performed on discrete items
- Engagement with passport custodians

# Take Home Messages

- Passport access
  - ✓ Early legal agreements
- Consider blood ABP collections
  - ✓ Early engagement with ADOs
- Consider laboratory challenges
  - ✓ TDP changes, investigations/intel references, unpredictable findings
- Engagement – lessons learnt
