

CONTEXT

Whereabouts rules, which are a key component of global sport’s crucial out-of-competition testing programs, are part of the International Standard for Testing and Investigations (ISTI). The rules require a limited number of top-level athletes within a Registered Testing Pool (RTP) to provide their Anti-Doping Organization (ADO) with details of where they can be located for testing.

ABOUT ATHLETE CENTRAL

- ‘Athlete Central’ is WADA’s new App that will facilitate athlete compliance with Whereabouts rules under the global anti-doping program.
- Athlete Central will replace WADA’s current App that has been operational for a few years and required modernizing.
- Powered by ADAMS (Anti-Doping Administration and Management System), the new Athlete Central is a simple, smart and reliable way for athletes to provide their Whereabouts information in order to support out of competition testing and demonstrate their commitment to clean sport.

 <p>Smart App for improved accuracy</p>	 <p>Location-based address recommendations</p>	 <p>Intuitive user Interface requiring less support & training</p>
 <p>Supports all types of Whereabouts pools, including RTPs</p>	 <p>Improved adherence to International Standard for Testing and Investigations (ISTI)</p>	 <p>A dedicated Help Desk</p>

ADAMS

ABOUT 'NEXT GEN' ADAMS

- ADAMS is a secure and cost-free, web-based system that centralizes doping control-related information such as athlete Whereabouts, testing history, laboratory results, the Athlete Biological Passport, Therapeutic Use Exemptions (TUEs) and information on Anti-Doping Rule Violations.
- In 2017, significant upgrades to ADAMS' underlying infrastructure laid the foundation for the complete rebuild of ADAMS which will serve all athletes and anti-doping stakeholders better going forward.
- Referred to as the 'Next Gen' ADAMS, the rebuild prioritizes mobility of ADAMS use, enhanced connectivity, reliability and performance, as well as general usability. All of ADAMS' new features are also designed with privacy, information security, accessibility and transparency for end users as a priority.
- Planning and development of the 'Next Gen' ADAMS first focused on an all-new Whereabouts application, Athlete Central. Other modules are to follow, which WADA will communicate to stakeholders in due course.

ADAMS USAGE

 20,000 Athletes	 2,000 ADO Personnel	 220 Laboratory Personnel	 130 Athlete Passport Management Unit Users
