The Anti-Doping e-Learning platform (ADEL) offers access to all topics related to clean sport and anti-doping. It offers courses for athletes, coaches, doctors, administrators and anyone interested in learning more about anti-doping and protecting the values of clean sport.

**Athlete Learning Program about Health & Anti-Doping (ALPHA)**

A course that provides information about the dangers of doping and the importance of anti-doping controls, as well as promoting positive attitudes towards clean sport. The tool shifts the focus from what athletes are not allowed to do, to offering solutions for clean participation in sport.

**Coach True**

Coach True provides anti-doping education for coaches of elite and recreational-level athletes. It has different modules covering all anti-doping processes as well as tutorials, scenario-based activities and quizzes.

**Sport Physicists’ Tool Kit Online**

Sport Physicists’ Tool Kit Online is a streamlined version of the paper-based tool kit that allows physicians and other medical personnel to take the course electronically. In addition to covering anti-doping modules specific to sport physicians, the tool kit includes modules covering major-games topics, done in collaboration with the IOC.

**ADO Kickstart**

ADO Kickstart is a reference tool that supports administrators in delivering their core anti-doping duties in a daily basis. Step-by-step processes are outlined with supporting templates, along with relevant resources for each activity.

**Parents’ Guide**

Parents’ Guide is an anti-doping reference guide/booklet for parents seeking more information to ensure healthy athletic development of their children and prevent their use of prohibited substances. This resource is relevant to parents of all levels of athletes from beginner to elite.

**University Textbook**

The University Textbook, a collaboration between FSU, WADA and the 2016 Georgia Summer Universiade Organising Committee, is designed to be a comprehensive overview of doping in sport. The main target audience is university students who will one day be involved in sport in any capacity or discipline.

**Information Security Awareness for Everyone (ISAFE)**

Information Security Awareness for Everyone (ISAFE) is a video-based course designed to help anyone learn more about safe practices that can be implemented to protect against common security threats when using anti-doping tools (like ADAMS).

**Athlete Biological Passport (ABP) Expert Guide**

Athlete Biological Passport (ABP) Expert Guide is an educational reference course exclusively for designated ABP experts, therefore, only those who are engaged to an Athlete Passport Management Unit (APMU) to review passports will be provided access.

To find all these resources please go to www.wada-ama.org/en/education-prevention
In 2001, WADA partnered with Choose, the publishers of the Choose Your Own Adventure series of children's books, to publish two anti-doping and sport values themed books. Books are available in English and French.

**Always Prompted Last**
Suggested for readers 9-12 years of age

**Track Star**
Suggested for readers 12 years of age and older

**Dangers of Doping Leaflet**
A simple reference guide which outlines why doping is a concern and explains the health consequences of doping, including the risks associated with supplements and substances such as steroids, EPO, stimulants, NDR, masking agents, marijuana and narcotics. Targets youth 14-18 years old.

**Athlete Reference Guide to 2015 Code**
This guide familiarizes you with the 2015 Code and helps you understand the rules of the Code. You are encouraged to read this guide. This document is merely a guide and is not a substitute for the language of the Code. **Tool Kits (document format)**

**Coach's Tool Kit**
This toolkit provides ADOS, coaching and sports organizations and unmanned with material that can be integrated directly into existing coaching education curricula in select modules stand-alone workshops.

**Teacher's Tool Kit**
This toolkit contains a series of lesson plans and activity ideas that can be used by teachers to educate youth about doping in sport and in a formal education system.

**Program Officer's Tool Kit**
This toolkit is intended to provide the tools needed to build an anti-doping education program.

**Sport Physician's Tool Kit**
This toolkit helps sport physicians develop anti-doping education programs, which can be adapted and customized to suit local cultures, conditions and resources.

**Doping Control Process**
This video provides athletes with basic information about their rights and responsibilities in the doping control process and outlines each phase of the process.

**Athlete Testimonials**
In this video, current and retired athletes offer their views on sport, doping and anti-doping, based on their experiences competing at the highest levels; they discuss the importance of protecting sport for the clean athletes.

**Social Science Research Literature Review**
This animated video extracts the most relevant points from anti-doping literature between 2005 and 2010 for ADOS.
