

TD2019CG/LH: Summary of Major Modifications

The Technical Document on Reporting and Management of Urinary Human Chorionic Gonadotrophin (hCG) and Luteinizing Hormone (LH) Findings in Male *Athletes*, TD2019CG/LH, has been modified to account for the changes made in the new TD2019DL in regards to adjustments for high (> 1.018) urinary specific gravity (SG):

- In footnote 8, the formula for SG-correction of the Decision Limit (DL) for hCG has been updated;
- In footnote 9, the corresponding formula for SG-correction of LH concentrations has been updated.

The TD2019CG/LH replaces the former TD2018CG/LH.
